

Rejuvenate on the Road!

Mobile Skin Care Team Cares for Bridal Parties at Custom Weddings

(For immediate release: January 15, 2013, Spokane, WA)

Custom Weddings is a completely unique experience when it comes to Bridal Shows, and so it makes perfect sense that the always distinct, Rejuvenate Rx is hittin' the road and joining the region's leading wedding experts. Rejuvenate's team will take great care of the brides and their guests on Saturday, Jan. 19th.

As you watch the aerial flyers overhead, enjoy social hours, and visit with area event experts... you can get some one-on-one face time with Rejuvenate's team. Dr. Gwyn and lead clinical esthetician, Kim Jarrell offer physician directed skin care. Rejuvenate offers mini facials, cryotherapy, and plenty of advice on preparing your skin (forehead to shins) for your big event.

Jaime Johnson Events produces Custom Weddings and Jaime Johnson says, "*The team at Rejuvenate Rx can handle those emergency pimples the day before a wedding (Dr. Gwyn has a magic potion!), and long term skin care (like facials and Botox). Dr. Gwyn takes care of my skin and it's been amazing! Custom Weddings is a great opportunity for our brides to sample Rejuvenate's gifts.*"

At Custom Weddings you get real attention from the vendors, to really ask questions, to really experience what that provider has to offer. This is not a giant, trade show... this is a boutique bridal event that hand-picks the region's top caterers, bakers, music makers, dress retailers, performers, etc. Rejuvenate's Dr. Gwyn is excited her team will join the celebration, "*Jaime is an award winning event planner, we know her shows are creative and intentional. That's our philosophy, so it's a good fit. We treat your skin individually, use out of the box solutions, and the proven SkinCeuticals products.*"
