Rejuvenate Rx Launches Ultherapy® ... The Non-Invasive Facelift

Ultherapy® is the only non-invasive procedure cleared by the FDA to lift skin on the neck, under the chin, and on the eyebrow.

Need a lift? Would you like to appear more bright-eyed, enjoy smoother skin, and look younger? No, you don't need surgery. Rejuvenate Rx now offers Ultherapy® – According to Ulthera, Inc. (founded in 2004), this time-tested ultrasound energy helps lift and tighten the skin naturally, without surgery or downtime. "Ultrasound energy" is the science of sound waves that humans can't hear.

Ultherapy® delivers energy to the connective tissue below the skin and heats the skin at the same time – the combination creates an excellent lifting and tightening of the skin. Ultherapy® can focus the energy to the spots where you need collagen to regenerate itself, without cutting or disrupting the surface of the skin.

Rejuvenate's Dr. Gwyneth Blattau-Gay says, *"We're so excited to offer Ultherapy®, we'll be able to have an even stronger impact on anti-aging for our clients. Plus, the technique suits our mission of offering access to healthy, non-invasive skin care for a more youthful appearance."*

Dr. Gwyn and her team have been smoothing wrinkles and nurturing skin with innovative techniques and great preventative products, including SkinCeuticals, since Rejuvenate Rx opened on the North Side nearly three years ago. Rejuvenate Rx opened in its brand new, customized location this summer (Wanderemere shopping area).

You're a good candidate for Ultherapy® if your skin has started to feel and look less firm. Dr. Gwyn says, *"We can tighten up a lowered eyebrow line, loose skin on the neck, sagging under the chin, and lines or wrinkles on your chest. It's awesome!"*

Rejuvenate Rx hosts a lively event:

- **Presentation on Ultherapy®, demonstrations, & mini treatments**
- **Plenty of treats, vino, giveaways, & hospitality**
- **Please RSVP, there are only a few spaces available**
- **January 29, 2015 | 4pm – 6pm | 509.290.6149**
